Docket No. 98N-1265  
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have lived compounded medications after nearly 2 years of  
contemporary meds. These drugs helped relieve my depression, sleeplessness  
and anxiety plus took the common side effects. I can live a normal life.  
My children & boyfriend are grateful to Madison Pharmacy Lab 1155 Inc. They  
have brought my life back to me. I used to be a grizzly bear to live with. I  
can finally live a normal life. Get the sleep I need - even when I work my  
night job. These labs specifically give me - An Individual what needs "I"  
personally need - not the run of the mill meds I had been taking for over  
2 years. The thought of not being able to receive my compounded drugs  
make me feel anxious and terrified. Please don't let my life go to  
being a "living Hell" again without these drugs!

Thank you
